NEW INDUSTRY FOR FLORIDA

MIAMI COMPANY WILL MANUFACTURE MATTRESSES FROM SPONGE.

In today's paper appears articles of incorporation notice of the Miami Sponge Mattress and Pillow Company, a corporation which is engaged in manufacturing sponge mattresses in this city and one which is meeting with splendid success already, says the Miami Metropolis.

The mattresses are made under patents, the sponges being treated in a scientific manner, making them very soft, non-absorbent and purely hygienic and sanitary. These mattresses are acknowledged by all who have examined and tried them to be superior to any mattress on the market and are sold at far less than other high-grade makes. One valuable feature is the lightness—a full-size five-inch sponge mattress weighing only twenty pounds, thus making it easy to handle, while it is as soft and comfortable as a feather bed. The company has at its factory on Fifth street, some ten or twelve people employed and as soon as the building can be enlarged the force will be doubled.

The incorporation and officers of the company are Lina Beecher, president; S. M. Tatum, vice-president; E. V. Blackman, secretary and B. B. Tatum treasurer.

The company is capitalized at \$150,000, of which amount \$10,000 is taken by the incorporators and \$5,000 is held as treasury stock to be sold for the use of the company. This stock was put on the market yesterday and one thousand dollars worth of it sold during the day. There is no doubt as to the success of this enterprise and it is confidently expected that in less than two months it will be necessary to employ fifty to seventy-five people to make the mattresses as fast as the demand.

This mattress has no competitor and will doubtless soon become known as the most popular mattress in the world.

A HEALTHY FAMILY

Is the one that can rightfully boast of pure blood. When the rich, red wine of life is coursing through the veins it imparts vigor and strength to the body and healthy action to all parts of the system. A healthy family is a wealthy family; it may be poor in worldly goods, but possessed of a priceless jewel that all the riches of earth cannot buy. A healthy family may not carry in their veins the blood of titled nobles or distinguished ancestors, but vigorous health is always an evidence of the best and purest blood, for the vital fluid contains all material necessary for the making of bone and muscle and the growth and development of the body, and upon its purity rests our chances for good health. When the body is fed upon weak, sickly blood the system languishes, growth is stunted, disease enters without hindrance, and the simplest maladies are apt to develop into serious sickness. In so many ways does the blood become contaminated that the fewest number succeed in keeping this life-giving, health-sustaining fluid in a pure and natural state. We inherit the disease-tainted blood of ancestors, parents transmit to their children such impoverished and weak blood that their lives are a continuous battle against disease, and from earliest infancy are harassed by sores and the most dreadful skin eruptions, and heirs to some old family disease. No one has a right to throw upon the shoulders of posterity a disease that might have been cured, or allow the blood to remain impure without an effort to restore it to health. Rheumatism, Catarrh, Scrofula and many of the severest forms of skin diseases are frequently inherited, and only the most thorough constitutional treatment can remove them. Bad blood is responsible for more ill health than all other causes combined; it absorbs the poisons that gather in the system, and the germs and microbes floating in the air find their way into the circulation, and old sores and ulcers, Eczema, Boils, Malaria and a long train of other diseases follow.

If you do not come of a strong and vigorous family and your blood shows evidence of impurity, nothing will so quickly bring it back to a healthy condition as S. S. S., the most widely known and popular blood remedy on the market. It purifies and builds up weak, sluggish blood and stimulates the circulation, and thus rids the system of impurities. S. S. S. contains tonic as well as blood purifying properties, and builds up the general health, improves the appetite and digestion, and tones up the nerves while ridding the blood of all poisons and humors. Nothing reaches old chronic blood troubles like S. S. S., and being a strictly vegetable remedy can be taken by old and young without any bad after effects or injury to the system. As a blood purifier and tonic at this season S. S. S. has no superior. It puts the blood in good order, removes all poisonous accumulations, invigorates all parts of the system and prevents that debilitated, tired feeling common to this time of year. Keeping the blood healthy is the secret of all healthy families. Write us if in need of medical advice, which our physicians will furnish free of charge. Book on the blood and its diseases mailed free.
